MINUTES OF MEETINGS
OF THE
Board of Commissioners

DECEMBER, 1922

NEWARK, N. J.

December 5, 1922.

A regular meeting of the Board of Commissioners of the City of Newark, N. J., was held on the above date in the Commissioners' Chamber, City Hall, at 11 A. M.

Present:—Commissioners Brennan, Gillen, Howe, Mayor Breidenbach.

Absent:—Commissioner Raymond.

The minutes of the meeting of November 28th were read and approved.

Mayor Breidenbach:—Are there any citizens desiring to be heard?

Mr. Samuel R. Kleinman, 130 Market Street, appeared in reference to the application for permit of the Talmud Torah Association and requested that the City Commissioners give their permission to the Congregation Talmud Torah to use this particular

piece of land, situated on the westerly side of Whitney Street, for cemetery purposes.

Mr. Kleinman stated that this piece of land was purchased in September, 1920, and that he immediately made application to the City Commissioners to use the land for cemetery purposes, but in giving a description to the Board of Health, the Commissioners had included more land than we owned which included a tract of land on which there was a house. Wishing to correct the error, I immediately requested that the permit be revoked, and that a new permit be given to us, including the land owned by us, and I am now making application that the City give us back what we originally had.

Mayor Breidenbach:—Are there any other citizens interested?

Mr. William Brooks, 20 Clinton Street, appeared and stated that some time ago he represented persons who did object, but the matter was settled. He said he was of the opinion

that the Talmud Torah Association had a permit for all the ground they were using. He stated that he did not know what this new description contained, but that if it vacated Ruth Street, the Cemetery of the Holy Sepulchre ought to be notified.

Mayor Breidenbach: — City Clerk Egan notified the people around there, by letter, to appear if they had any objections.

Commissioner Brennan moved that the matter be laid over one week so that Mr. Kearns could be present at the hearing.

City Clerk.

NEWARK, N. J.

December 12, 1922.

A regular meeting of the Board of Commissioners of the City of Newark, N. J., was held on the above date in the Commissioners' Chamber, City Hall, at 11 A. M.

Present: — Commissioners Brennan, Gillen, Howe, Raymond, Mayor Breidenbach.

The minutes of the meeting of December 5th were read and approved.

Mayor Breidenbach:--Are there any citizens desiring to be heard?

Mr. Richard Hartshorne, 763 Broad Street appeared and stated that he represented 198 taxpayers and over 200 properties in the heart of the City, and presented a petition for the property owners in reference to the widening of Commerce Street. He stated that the widening of this street would be for the main purpose of affording access to the New Centre Market and the Property Owners' Committee, which he represented, felt that the expense of this proposed improvement should be borne by the City at large.

Mr. John W. Strahan, 79 Halsey Street, appeared and presented a petition signed by 18 property owners in the center of the City, objecting to the proposed assessment for the widening of Commerce Street. He stated that the property along Commerce Street was the only property that would be benefited and said that he failed to see where the widening of

Commerce Street would be of any benefit to property owners on Halsey Street or Washington Street.

Mr. John F. Murray, Jr., representing the Mutual Benefit Life Insurance Company, appeared and said that he did not agree with Mr. Strahan. He said that there was no doubt but that the widening of Commerce Street would divert traffic from Market Street but that the property owners along Market Street would be benefited because it would relieve traffic there. He further said that the Company would protest, very strongly, against the whole assessment of the proposed widening of the street being levied against property owners on Commerce Street.

Mr. William J. Kearns, 216 Market Street, appeared in reference to the application of the Talmud Torah Association for permission to conduct a cemetery on the westerly side of Whitney Street. He said that he had looked over the resolution which had been submitted by the Talmud Torah Association and found a description which is not quite correct. It does not seem to carry out the intention that they desire this resolution to effectuate. There is no petition signed by the Congregation. At least the Clerk cannot find it. There is no approval of the Board of Health, in writing. The description is incorrect. Mr. Kearns stated that he would like time to look into the matter.

Commissioner Raymond moved that the matter of the application of the Talmud Torah Association be laid over until December 19th.

The roll being called, the motion was declared adopted by the following votes:

Deas: — Commissioners Brennan, Gillen, Howe, Raymond, Mayor Breidenbach.

Mr. Samuel R. Kleinman, 130 Market Street, appeared in reference to the application for permit of the Talmud Torah Association and was informed that the matter would be laid over until December 19th.

The following reports of the Commissioners of Assessments for Local Improvements were received and ordered filed:

South 20th Street Paving,
Montgomery Avenue Paving,
Goodwin Avenue Paving.

Mr. Richard Hartshorne presented the following petition which was read by the clerk:

To the Honorable,
The Board of Commissioners of
The City of Newark.

The petition of the undersigned taxpayers of the City of Newark respectfully shows:

1. Your petitioners constitute a large body of property owners in the heart of the City of Newark, who have been notified of the intention of the municipal authorities to widen Commerce Street from forty-four to sixty feet in width from Broad Street easterly under the Pennsylvania Railroad to Market Street.

2. Not only as property owners, but as citizens, Your Petitioners urgently desire to present for the consideration of this Honorable Body certain matters affecting the general

policy of the city, with regard to the proposed widening of Commerce Street therein.

3. To this end we set forth the actual situation. The City Government in order to serve the welfare of the citizens as a whole, has undertaken to change the location of the present city market to a new location where it can occupy an amount of space better adapted to the needs of the citizens as a whole. But, in doing so, the market is being removed from its present location on the main thoroughfare of the City, to a location now accessible through narrow and insufficient streets.

4. In order to make the market useful to the citizens of Newark, better access thereto must be had. Without improved access the city market would be a failure, and from three to five millions of dollars belonging to the citizens of Newark would be little better than wasted.

5. Faced with this situation, this Honorable Body of necessity cast about for the best plan to make the new market, erected for the welfare of the citizens as a whole, fully useful and accessible to the citizens. Since the abandonment of the proposed Mulberry Street widening, for good and sufficient reasons, the municipal authorities have proposed to give better access to the market along its entire southern side by widening the present narrow and congested Commerce Street from forty-four to sixty feet in width; and, by further contemplated improvements, to give similar access along the northern and eastern sides of the market—thus making the City Market easily and properly available for the use of all the citizens of Newark, from all corners of the city.

6. That this is the real situation, as to the proposed Commerce Street widening, can be fully appreciated by asking the question "Would the widening of Commerce Street have been thought of, if the city market had been left where it now stands?"

7. This proposed widening of Commerce Street having been thus necessitated by the needs of the city market, erected for the welfare of the city as a whole, not only in law but in all fairness, the main cost of this necessary adjunct to the market should be borne in the same way as the cost of the market itself—by the city as a whole.

8. However, this proposed widening of Commerce Street differs radically from the opening of Branford Place in many and important respects;

a. The Branford Place improvement was the opening of a new street. The widening of Commerce Street clearly opens no new street and hence creates no new artery of traffic, as the Branford Place opening did.

b. The Branford Place opening afforded means of access to properties formerly entirely land blocked; this the Commerce Street widening will not do.

c. The purpose of the Branford Place opening was not to render available a public institution for the use of the citizens as a whole. This the Commerce Street widening emphatically does. If it were not for this fact, such widening would never have been contemplated. Without it the city market will be of little value to the citizens of Newark.

9. Hence, the Branford Place Opening forms no precedent, either in fact or in law, for the use of similar methods by the municipal authorities in regard to the Commerce Street widening. Consequently, assessments, valid in the case of Branford Place, may well be invalid when similarly imposed in the case of Commerce Street. For the same reasons, the city should in all fairness bear a much greater share of the cost of the Commerce Street widening than it did in the case of the Branford Place opening.

10. Of course, there is no question but that the properties directly abutting upon the line of this improvement, will be benefited thereby due to the greater amount of traffic that will pass along such widened street. Your Petitioners do not urge that this benefit be granted such abutting property owners at the expense of the city as a whole, though most of the traffic increase would occur even without the widening, due to the very existence of the market itself. Further, while the widening of Commerce Street may make it more available to the public at large, no appreciable benefit will accrue therefrom to the other properties in its general vicinity on other streets. A great majority of the persons using widened Commerce Street would go to the market to buy their food anyway, even if Commerce were not widened. Their presence in that neighborhood, therefore, will be due not to the widening of Commerce Street but to the existence of the market itself.

11. In fact, to certain property owners in that vicinity, on Market Street as one instance, this widening may prove not a benefit—but an actual detriment. If Commerce Street

is not widened, many persons will pass the doors of such property on their way to the new market, and thus such owners will receive an indirect benefit from the market itself. But, if Commerce Street is widened, many of these very same persons, to reach the market from the East, West and South, will leave Market Street and use Commerce Street instead. Consequently, this widening of Commerce Street will detract from the value of such properties rather than add to it.

12. The mere fact that this Honorable Board did not carry out its original intention to widen Commerce Street from Broad Street to Railroad Place only, but are now seeking to widen it under the Pennsylvania Railroad to Market Street, changes the situation in no way. Since Commerce Street when widened will be so heavily used by marketing citizens and supply men, the parking, discharge of goods and congestion on the street will be so great as to render it practically worthless for through traffic. It will be valuable on the whole only to those bent marketwards. This extension of the Commissioners' original intention will thus serve merely to divert from the stores along Market Street or other neighboring streets further prospective customers coming to the market from the East, not affecting through traffic in any way. But, even if a small amount of through traffic should be diverted through Commerce Street, this would only advantage the property owners along Commerce Street and the occupants of these vehicles, presumably our citizens generally. It would not advantage the remaining property owners throughout this area, since it would merely prevent them from displaying

their wares to these prospective customers in such vehicles.

13. In the last analysis, people cause property values. The most modern buildings, the finest streets, are valueless without people to use them. On the other hand, comparatively poor buildings and streets may yet be extremely valuable if people use them. Hence, it has been suggested that, due to the increase in people coming to the market through the widened Commerce Street, this widening increases the value of the surrounding properties which should, therefore, share in the expense of the improvement. But, what is it that will increase the number of these people? Is it the widening of Commerce Street, or the existence of the market? The question answers itself.

14. Hence, except for the property owners abutting on widened Commerce Street, the other property owners in the neighborhood will receive no appreciable benefit from the widening as such their only benefit accruing from the construction of the market itself. While, for a certain class of property owners, for instance those on Market Street, their values may actually be lessened through this change by its diversion of traffic from their doors.

15. Therefore, since this proposed improvement is necessitated by the market, erected for the welfare of the citizens as a whole, and since the benefits of widened Commerce Street will accrue to the citizens as a whole and to the property owners immediately abutting upon the line of such improvement, Your Petitioners submit that this Honorable Body cannot but decide that such improvement should, in all fairness, be financed by

those for whose benefit it is carried out.

16. To that end Your Petitioners would respectfully urge that

a. The main expense of this improvement, mainly intended for, and necessarily resulting in, benefit to the citizens as a whole, be met by a bond issue in the same manner as was the expense of the City Market, of which the present improvement is an essential adjunct, and which, without the present improvement, would be of little value to the citizens of Newark.

b. That the remainder of such expense be imposed upon the property owners clearly benefited by such improvement, as distinguished from the benefits resulting from the construction of the market itself. These property owners obviously include the owners of the property abutting upon the line of such improvement, while the inclusion of others, for the reasons above referred to, is subject to grave question.

17. For this fair-minded method of financing the proposed improvement, there is not only specific statutory authority (P. L. 1917 A-319), but repeated municipal precedent. In fact, in this city this Honorable Body has on at least two occasions, within the last two years, carried out municipal improvements at the sole expense of the city, to wit: in the widening of Park Place and in the widening of the junction of Bloomfield and Belleville Avenues.

18. But Your Petitioners do not ask that such action be taken here. They feel that in all fairness the citizens of Newark should not be asked

to contribute to the direct and clear increase of property valuations along the line of Commerce Street. On the other hand, it is but equally fair that the citizens of Newark should pay as a whole for the benefits which those citizens receive as a whole.

Your Petitioners, therefore, respectfully pray that, as the widening of Commerce Street is necessary for the citizens of Newark, to make available the city market erected for the benefit of such citizens, the main cost thereof should be borne by a city bond issue, in the same manner as the cost of the city market itself—the remainder of such cost to be assessed against those properties clearly and peculiarly benefited by such improvement.

(Signed) Richard Hartshorne,

Attorney for Property Owners.

(Signed by about 200 taxpayers).

The Board of Commissioners of
The City of Newark, N. J.

W. J. EGAN,
City Clerk.

NEWARK, N. J.

December 19, 1922.

A regular meeting of the Board of Commissioners of the City of Newark, N. J., was held on the above date in the Commissioners' Chamber, City Hall, at 11 A. M.

Present: — Commissioners Brennan, Gillen, Howe, Raymond, Mayor Breidenbach.

The minutes of the meeting of December 12, were read and approved.

Mayor Breidenbach:—Are there any citizens desiring to be heard?

Mr. Richard Hartshorne, 763 Broad Street, appeared in reference to the opening of Ward Street. He stated that he represented certain property owners, some of whom would appear before the commission at the meeting a little later on. In regard to the Ward Street opening he said that that street was an integral part of a series of improvements which the City is making. Ward Street, Commerce Street, Canal Street and possibly Mulberry Street will all have the same general trend. He said that he desired to make a request of the Board in behalf of the property owners, that it be as consistent in the matter of assessments as possible. He also stated that the property owners desired to call to the attention of the Commission the extreme width of 100 feet and asked the reason for same, also why the opening was being extended to River Street. The property owners do not feel that Ward Street ought to be widened to the extent of 100 feet. He further stated that these improvements are

being made for the benefit of the market and not for the direct benefit of the property owners and therefore the cost should be borne apportionately.

Mr. W. A. Barkolow, 143 Liberty Street, New York City, presented the following petition which was read by the clerk:

Central Railroad of New Jersey
Office of the
Real Estate and Tax Agent,
Central Building, 143 Liberty Street,
New York.

December 18, 1922.

To the Board of Commissioners of
The City of Newark, New Jersey.

Gentlemen:

Pursuant to public notice of intention by the Board of Commissioners of the City of Newark to cause the opening of Ward Street from Market Street to River Street, the cost thereof to be assessed against properties benefited in proportion to benefits received, your petitioners, the undersigned, hereby present their objections as follows:

First: It has been represented that the zone to be assessed is included within an area bounded by the Passaic River on the north, Railroad Place on the east, Elm Street on the south and Mulberry Street on the west, within which zone your petitioners are property owners.

Second: Your petitioners object to their property being assessed for this improvement.

Third: The principal business of your petitioners is that of Common Carrier and property of your petitioners will not be benefited, even to the remotest degree by the proposed improvement.

Fourth: Primarily, the improvement is for the benefit of the City at large, and in the judgment of your petitioners the major portion of the cost thereof should be borne by the City at large.

Respectfully submitted,

The Central Railroad of
New Jersey

Mayor Breidenbach: — Any other citizens desiring to be heard?

Mr. Samuel Baker, Baker Printing Company, 251 Market Street:—We have no objection to this improvement, the opening of Ward Street. All we ask from the Commissioners and Assessment Commissioners is to proportion a fair part of the assessment on the City at large. If you tax us fully, you take a good part of our property away.

Commissioner Raymond stated that that was a matter for the assessment of benefits. We feel, notwithstanding what Mr. Hartshorne has said, it will tremendously increase the value of property there. I cannot bring myself to feel that the assessment should be levied on the City at large. I do not feel that we should fix the amount here. That will be a matter for the Assessment Commission.

East Orange, N. J.

December 14th, 1922.

Honorable F. Breidenbach,
City Hall,
Newark, N. J.

Honorable Sir:

No doubt you as well as myself and numerous others feel the great loss humanity has suffered by the decease of their benefactor, Dr. M. Royal Whitenack.

Realizing that he leaves no one behind who will, or can carry his name, it is evident it will soon be forgotten as with the many good and charitable deeds performed by him during his life time.

To preserve his memory is it not possible or fitting to collect funds to establish a public memorial?

As one who feels deeply his absence and will always cherish his memory may I be the first to donate fifty dollars (\$50.00) to this cause.

I feel sure that if such a proposition was put before the general public by yourself and colleagues it would be carried through with wonderful enthusiasm.

I am ready to offer any assistance in my power for support of such a movement.

Yours most sincerely,

Isidore Finke.

Commissioner Gillen moved that the communication be received and filed and that the plan be endorsed by the Commission.

The roll being called, the motion was declared adopted by the following votes:

Yeas: — Commissioners Brennan, Gillen, Howe, Raymond, Mayor Breidenbach.

John W. Strahan,
Counsellor at Law
79 Halsey Street

Newark, N. J., December 12, 1922.

Hon. Frederick C. Breidenbach,
Mayor of the City of Newark,
City Hall, Newark, N. J.

My dear Mr. Mayor:

In order that the intention of my remarks in regard to the Commerce Street proposition cannot be misinterpreted by what Judge Murray said, in following me this morning, I wish to reiterate the gist of my stand, to wit:

I believe that such property owners who are actually benefited by such a public improvement should pay something for their increased increment of value, but in this case I also believe that the City at large, either through general taxation or a bond issue should shoulder a large portion of the expense of such a benefit, which will also accrue to the City as a whole.

In view of the use to which Commerce Street will chiefly be devoted (New City Market) it seems fair to me that the City should stand for at least 75% of the cost and the balance on the property owners actually benefited.

As I came in late at the hearing and did not have sufficient time to properly get my bearings before being called upon to present my views, I thought that my remarks might need this further explanation.

With the best of personals regards,
I remain,

Sincerely yours,

John W. Strahan.

Ordered filed.

A communication from J. C. Dana, Secretary of the Board of Trustees of the Free Public Library, relative to the establishment of a branch library in the Vailsburg section was, read and on motion ordered referred to the Budget Conference.

A communication from Allerton D. Hitch, requesting an opportunity to present to the City Commission reasons and statistics that would warrant the City in contributing for the upkeep of the New Jersey Orthopaedic Hospital and Dispensary, was received, read and on motion ordered referred to the Law Department for an opinion.

Commissioner Raymond:—I have a personal interest in this hospital. I was one of the founders and first President of it. It is a hospital of the highest order. It takes care of a

great many Newark children. Formerly the children were sent to New York, but since it has been established in Orange the Newark children are taken care of there. I would like to have the communication favorably considered.

Mayor Breidenbach announced that there would be a Budget Conference Thursday, December 28th, in Mr. A. K. Brady's office.
